Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required to elect a single invention to which the claims must be restricted.

Group I, claims 1-3, 5-7 and 16-18, drawn to a method and device for ultrasonic welding and ultrasonic cutting of wrappings.

Group II, claim 11, drawn to a device for ultrasonic welding.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

- Group I has the special technical feature of both ultrasonic welding and ultrasonic cutting of the films.
- Group II has the special technical feature of ultrasonic welding including a pressure roller.

The two Groups of claims do not share the same special technical feature and Group II is not considered to be patentable over the prior art (see for instance the reference to Onishi (US 4,461,662)).

3. During a telephone conversation with Ms. Jan Simpson (applicant's representative) on 19 January 2007 a provisional election was made **without** traverse to prosecute the invention of Group I, claims 1-3, 5-7 and 16-18. Claim 11 is withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Art Unit: 3721

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

6. Authorization for this examiner's amendment was given in a telephone interview with Ms. Jan Simpson (applicant's representative) on 19 January 2007.

7. The application has been amended as follows:

In the claims:

Claim 6, line 23, delete "weldingand" and insert --welding and--.

Cancel claim 11.

Explanation for Examiner's Amendment

8. Claim 6 has been amended to correct an editorial error. This application is in condition for allowance except for the presence of claim 11 directed to an invention non-elected without traverse. Accordingly, claim 11 has been cancelled.

Response to Substitute Specification

9. Receipt is acknowledged of a substitute specification, filed 11 January 2007, which has been placed of record and entered in the file.

Drawings

10. The replacement drawings were received on 11 January 2007. These drawings are acceptable.
